

Dear FCC,

I LIKE the NJ DO NOT CALL list just the way it is. If NJ decides to exceed federal in other areas it's "OK". If we have more stringent pollution laws, for example, we don't see the EPA interfering. We enacted this law and list because the constant interruption of the phone by parties we're sick of hearing from. If you white knights need something to joust, TV in all its various transmission schemes is still too raunchy. You're screwing with a law that works to the overall satisfaction of the citizens of NJ! LEAVE IT ALONE!!
